How Do You Do?

I represent the SHERMAN NURSERY COMPANY of Charles City, Iowa. We are growers of a general assortment of first-class nursery stock, and stock that will give you and your customers entire satisfaction.

We are located in a section of the country that for the past number of years has been favored with excellent growing conditions and sufficient moisture. Inasmuch as we have had many years of experience in growing and shipping nursery stock, combined with the ideal conditions required to grow hardy, thrifty stock, we know if you will favor us with at least part if not all of your requirements we will please.

I ask you now to give us a good trial order. Make your selection from this list and you will not regret it.

We specialize in some items such as phlox—both in salable size and lining out grade. Alpine Currant is another one of our specialties—good, thrifty, well-graded plants. Also, lining out evergreens are another item that we grow in large quantities as well as a complete assortment of hardy shrubs.

Perhaps I have seen you in the past, and if not, I will be glad to hear from you now.

If your order or correspondence is mailed to us, you will hear from me and the reply will be signed.

Yours very truly,

H. J. DEEMS, Vice Pres.

Sherman Nursery Company

CHARLES CITY, IOWA

P. S.—Don't overlook your needs in spruce, balled and burlapped.

TO THE TRADE:

We are pleased to send you this copy of our new Spring Wholesale Trade List. We carry a general line of stock and you will find our prices reasonable.

All of the stock we offer is thrifty, well-grown and first class in every way. It is our desire to dig the stock very carefully and grade according to the Grades of the American Association of Nurserymen. We are equipped to give you real service and will endeavor to handle your business in such a way as to merit your continued patronage.

Visitors are always welcome. Come and see our stock at any time. We extend to you a cordial invitation.

TERMS: 2% discount for payment in 10 days from date of invoice. Accounts **due first of second month following date of invoice.** These terms are offered to those with established credit; otherwise cash, security, or satisfactory references. C. O. D. orders must be accompanied by one-fourth cash.

3% discount will be given if check accompanies order.

PRICES—This list cancels all previous lists. Quotations are subject to change without notice.

PACKING—All packing charged at cost, as usual. No charge to pack bulk cars or trucks.

SHIPPING—Please give definite instructions. If no instructions are given, we will ship according to our best judgment.

CLAIMS—Maks claims promptly upon receipt of goods. While our responsibility ends when we deliver the goods in first class condition to the carrier, we will help all we can in settling claims that are made within ten days after arrival of stock.

While we exercise the greatest care possible to have our nursery products all genuine and reliable, we will replace, on proper proof, all that prove untrue. We do not give any warranty expressed or implied, or guarantee them to live and grow, or give specific results. In case of error on our part, it is understood that we shall at no time be held responsible for a greater amount than the original price of the goods.

All sales and contracts are made subject to crop losses or other causes beyond our control.

All stock is offered subject to prior sale.

Write for special large quantity prices.

SPECIAL PACKING FOR LINING OUT EVERGREENS

For many years we have used our special method of grading and packing all smaller stock—a method which insures that your stock will be a uniform strong grade and delivered in perfect condition regardless of distance. The stock is dug fresh for each individual order, roots carefully puddled and graded in the fields, then brought to the packing shed, and regraded over the table.

Your stock is then tied in bundles carefully packed in damp moss and each bundle wrapped in waterproof paper. The middle of the bundle cannot dry out nor heat. The shipment can be taken directly to your fields and planted from the box without any risk of drying out or exposure to the air, because the bundle is small and of convenient size.

EVERGREENS — ROOTED CUTTINGS

Varieties listed represent conifers grown from cuttings under glass. Transplanted and grown in open for one or more years.

SPECIMEN EVERGREENS B & B

Our Evergreens have all been transplanted and root pruned. They have been properly sheared and are grown with plenty of room for development. Our prices are for Evergreens securely balled and burlapped. Special prices on car lots.

All Evergreens are sold with the distinct understanding that if they arrive in good condition and are accepted, our responsibility ceases. Due to weather conditions, method of handling and care of trees, we cannot assume responsibility for the successful transplanting of Evergreens.

PHLOX — LINERS

Our lining out Baby Phlox are plants that have been grown in the greenhouse and will be ready for transplanting into the open field about April 15. They should be transplanted just as soon as the soil and weather conditions will permit. We have grown our Phlox in this manner for a number of years and we have had the best of success. They are not potted, but the roots will have sufficient dirt and they will be packed in such a way as to reach destination in prime condition.

Place your order now while our stock is complete. We offer the following varieties:

EVERGREENS

Our Evergreens have all been three or more times transplanted, and have been grown with plenty of room for development. They have been properly pruned and sheared for producing compact, symmetrical trees. We always dig fresh for each order.

BLACK HILL'S SPRUCE—*PICEA CANADENSIS ALBERTIANA*

Black Hills Spruce

Dense habit; bluish green. Hardest of all Spruces. Our type is extra good. The trees are symmetrical, compact and bushy habit of growth.
